ELLEN "BLACK HAND" MEMBERS FOUND GUILTY

Two Others on Trial at Wilkesbarre, Pa., Are Acquitted.

Wilkesbarre, Pa., May 7.—The sealed verdict of the jury in the "Black Hand" case was opened in court this morning. Eleven of the defendants were found guilty as indicted and two acquitted. The principal charge was the blowing up of the home of an Italian named Rizza because he refused to pay money to the band. The jury reached a verdict Saturday night and sealed it. After it was read yesterday counsel for the eleven convicted men made motions for a new trial. Judge Halsey said he would hear argument on the motion next Saturday.

The penalty for the crime for which the Italians were convicted is two years. District Attorney Saleburg said the prisoners would be tried on two other charges against them—dynamiting and attempting to kill.

ELLEN TERRY SECRETLY WED LEADING MAN

James Carew Announces He Married Irving's Former Co-Star in Pittsburgh in March.

New York, May 7.—Announcing Sunday night his secret marriage to Miss Ellen Terry, the great English actress, who won her laurels as co-star with the late Sir Henry Irving, James Carew, who has been her leading man during her recent American tour, stated that the ceremony was performed March 23 last by a justice of peace in Pittsburgh.

The tour of the Terry company closed Friday night at New Haven, and Mr. Carew made his announcement late Sunday night at the Hotel Grenville to a party of friends. Miss Terry was fifty-nine years of age in February, and Mr. Carew admitted Sunday night to be thirty-two, and looked even younger.

SUIT AGAINST MRS. EDDY BY KANSAS WOMAN

Aged Christian Science Leader Sued By Mrs. Etta Chapple of Sedgwick County—Cause Unknown.

Concord, N. H., May 7.—Word was received from Kansas yesterday that Mary Etta Chapple of Sedgwick county had entered suit against Mrs. Mary Baker Eddy, leader of the Christian Science church.

The cause and exact nature of the proceedings are not revealed in the notice which reached Sheriff Kimball of Merriam county by mail yesterday.

The legal notice was signed by Lawrence Reubacher and Conly of Wichita. The notice bears the signature of Ray L. Taylor, clerk of the Sedgwick court.

JEROME TO PUSH INSURANCE CASES

New York Grand Jury Will Hear of Host of Witnesses as to Metropolitan Company.

New York, May 7.—The May grand jury which began its sittings yesterday will hear the evidence which District Attorney Jerome has secured in his investigation of the affairs of the Metropolitan Life Insurance company. Subpoenas have been issued calling upon a number of the officers of the company to appear before the grand jury. It is said that Mr. Jerome intends to clear up as speedily as possible all cases growing out of the legislative insurance investigation and the election of the trustees of the big insurance companies.

COUNT WAS NOT KILLED; IS WORKING IN OREGON

Report That Austrian Nobleman Had Been Slain Is Contradicted.

Portland, Ore., May 7.—A despatch from Klamath Falls, Ore., says that Count Otto von Waldenstein, who was reported to have been killed at Willows, Cal., a few days ago, is alive and well at Klamath Falls, Ore., where he is employed on government reclamation work.

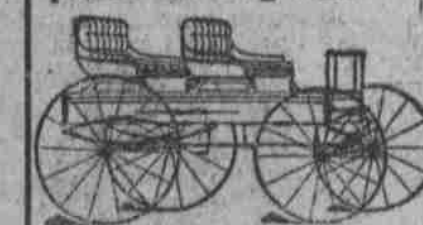

BOBBY WALTHOUR HURT.

Falls From Wheel and Is Injured, But Won Race.

Berlin, May 7.—"Bobby" Walthour, the American bicycle rider, met with a serious accident at Erfurt yesterday immediately after winning a 50-kilometre (31 miles) heat against Van der Stuyt. Walthour fell from his wheel, just after crossing the finish line, striking his head against a wooden railing. He was carried to the hospital unconscious.

STRIKERS ENJOINED

Judge Outlines Orders of Sweeping Restraint

IN TEAMSTERS' STRIKE

Must Not Ounce to Assault, Cutting Harness Taunting Persons in the Streets—Must Not Spend Funds in Payment of Fares.

Boston, May 7.—Judge Loring announced yesterday afternoon that he would issue an injunction on certain of the points asked for by the master teamsters whose employees have been on strike. He will enjoin the officers and members of local No. 25 from inciting to assault, from cutting harnesses or ropes on the teams of plaintiffs and from taunting persons on the streets. He will also enjoin the union from expenditure of its funds either for payment of fares out of town or for any purpose whatever in connection with the strike.

The injunction will be issued today. To Attorney Feeley, who is counsel for the petitioners, Judge Loring said: "You will have to amend your bill, as there is no joint interest on the part of the plaintiffs. You will do this early and then I will issue the temporary writ of injunction."

In announcing his decision Judge Loring declared that the firms whose men struck had a perfect right to hire men to make their places.

MEMORIAL TO CONGRESS.

Text of a Joint Resolution Pending in Wisconsin Legislature.

The following is a copy of a joint resolution in reference to the Moyer-Haywood affair now pending in the Wisconsin legislature. Being a legal summary up of the case by the attorneys for the defense, it is of great interest to organized labor and to the working class as a whole:

Whereas, Theodore Roosevelt, president of the United States, in his message to Congress, in discussing the decision of Federal Judge Humphrey in the case of the United States versus the meat packers, has held it was not only a constitutional right but a duty of every American citizen to criticize judicial decisions;

Whereas, The supreme court of the United States, in its decision in the case of the United States versus the meat packers, has held it was not only a constitutional right but a duty of every American citizen to criticize judicial decisions;

Whereas, Justice McKenna in his dissenting opinion held that there was no precedent for the decision of the circuit court which held that a circuit court of the United States when asked upon habeas corpus to discharge a person held in custody by a state in one of its courts under an indictment charging crime against its law cannot properly take into account the methods whereby a state obtained custody;

Whereas, Justice McKenna in his dissenting opinion set forth, first, that in the case at bar the evidence clearly showed that the states of Idaho and Colorado, through their officers, are the real offenders against the law; second, that the states of Idaho and Colorado by an illegal assumption of power deprived the accused Moyer, Haywood and Pettibone of a constitutional right, and a valuable one; third, that kidnapping is a crime pure and simple, and in this case the law had become the kidnaper; fourth, that the case should have been heard by the circuit court of the United States and not dismissed; and the action of the circuit court in so doing was a grave error, as it invaded the constitutional right of every American citizen and therefore should be reversed;

Resolved, That a copy of these resolutions be sent by the secretary of the senate to the state legislature of the several states, with the request that their respective bodies join in this memorial to Congress, as it affects the constitutional rights of every American citizen.

Resolved, That a copy of these resolutions be immediately transmitted by the secretary of state to the senate of the United States and to the house of representatives of the United States and to each of the senators and representatives of this state.

Compass on Socialism.

"There are too many brands of socialism," said Samuel Gompers in the course of a recent interview, "to hope for anything from its widely differing theories. I am in favor of applying the labor question methods that have ended the efficiency of which we know something about."

WORDS CAN NOT EXPRESS GRATITUDE TO CUTICURA

"Words are inadequate to express my gratitude for Cuticura Remedies. I had been troubled with eczema for five years on my ear and began to extend on my cheek. I had been doctoring with the best physicians but found no relief whatever. When informed that I could not bear the itching I was told by one of our best doctors, 'not to scratch.' As the medicines and salves did me no good I thought I would get the 'Magic Three.' Cuticura Soap, Cuticura Ointment, and Cuticura Pills, costing me one-half of one visit to my physician. After using as directed, with plenty of hot water, I can truthfully state that I found instant relief. When I had used three boxes of Cuticura Ointment and two boxes of Cuticura Soap I found my skin as soft and fine as a baby's. My circle of friends is very large, and I am persuading them to use Cuticura Soap and give up the kinds they were using. I find no trouble as my case has proven to them that if Cuticura Ointment is good, Cuticura Soap must be likewise."

"I hesitate to send you the enclosed picture as it has been lying around in my desk for two years and is very soiled. At the time it was taken my ears were scaly and you will find some remnants of Cuticura Ointment on it, and, to me, it is very precious, as I can now say when looking at it that Cuticura is a blessing, and that is why I have kept it even though it was soiled. Miss Nettie Ayers, 131 Franklin Ave., Brooklyn, N. Y., Sept. 1 and 15, 1906."

YOUNG GIRL SHOT HERSELF SITTING BESIDE ADMIRAL

Indicted a Fatal Wound During a Misunderstanding.

Lima, O., May 7.—Seated on a couch beside Harry Murphy, Ohio Hotel, yesterday afternoon, a young girl, shot herself fatally and is now dying in a hospital.

The police arrested Murphy, who admitted that it was with his revolver that the girl had committed the act during a misunderstanding between them. A girl friend of Murphy was also in the room, but she has not been taken into custody.

BOLD PLOT RESULTS IN ESCAPE OF 13 PRISONERS

Russian Revolutionaries Invade Jail and Release Comrades.

St. Petersburg, May 7.—A plot which resulted in the liberation of thirteen political prisoners was daringly executed at Alexanderov, near Katerinobsk, Sunday, during the Easter services at that prison.

While high mass was being celebrated in the chapel, a band of revolutionaries entered the building, killed the chief inspector, and exploded two bombs. Under cover of the confusion which followed thirteen political prisoners, including several important terrorists, escaped.

Where Unions Are Needed.

India has nearly 300,000,000 people on an area half as large as the United States. There is plenty of labor in India, cheap labor, too, as we learn from reports that a laborer steadily employed may earn as much as \$18.00 in one year.

Belgium has 7,000,000 people on an area of 11,373 square miles (about the size of Maryland or one-fourth the size of Mississippi). There is abundant labor in Belgium; cheap too. Reports state that the average earnings of a mechanic are \$160 per year and that English manufacturers are opening branches there on account of the cheap labor.

Imported Art.

A New York woman, a graduate of one of the city's art schools, was very much amused recently when a salesman in a Broadway shop tried to sell her a vase of her own decoration, explaining the high price by saying it was "imported and the work of a noted French artist."

Intercity Ball Team Won Slow Game, Score 8 to 2

THREE PITCHERS TRIED

School Boys Got Only Two Hits, But the League Twiflers Were Liberal With Their Pitches—Calgary Team Comes To-day.

The Intercity aggregation defeated Montpelier seminary on the Intercity grounds yesterday afternoon, the final score being 8 to 2. The grounds were not in the best of condition as a fine rain had been falling and the game was not as fast as it would otherwise have been. The Intercity team tried out three pitchers, Fraser, three innings; James, two innings, and Warner, four innings, and Jennings, a new arrival, at short.

TRADES UNION PAPERS.

Nearly 400 Labor Publications in the United States and Canada.

One hundred and eighty-five monthly and 170 weekly journals in the United States and Canada are devoted exclusively to the advocacy of trades unionism.

These 364 publications, which number does not include socialist periodicals, reach a not inconsiderable portion of the laboring community and exercise an influence in it which is little suspected.

There are in North America approximately 2,000,000 working people organized into trades unions, and each of them receives the official organ of the craft to which he or she belongs and usually one or two other labor papers. But the prestige of these journals extends beyond the enrolled membership of established organizations. They number among their subscribers many sympathizers and nonunion workmen. They are placed on the tables of reading rooms all over the country, and for every subscriber there are probably two readers. It is no exaggeration to say that they reach 5,000,000 readers, perhaps half as many more—World Today.

There are any number of attractive designs, but the most practical has a bodice very much on the shirt waist order, with plaits from the shoulders, both back and front, and the neck cut in a V shape. The smart boy's suit sketched is of white galatea cloth, which has the double merit of looking well and being durable. Pale blue bands trim the sailor collar, and the tie is of black surah silk.

SEASONABLE NOTES.

Soft Silks and Satins Best For Wedding Gowns—Bertha Collar.

At present the great preference for all soft silks and satins is marked. This is especially the case in wedding gowns, as the soft satins drape and hang more gracefully. Of course these soft fabrics require more trimming than the others, but that also is the mode this season.

Lace veils are not in as great demand as formerly, for they are so hard to arrange artistically. Nevertheless a handsome lace veil is infinitely richer than one of tulle and if put on the hair in a fetching way will usually take care of itself.

Plain colored silk shades of good quality and with pretty wood handles are now offered at extremely reasonable prices. Some are marked as low as \$1.50, while for another dollar one may get a beauty.

or another in this season an addition to nearly every frock. The models are without number, and they are formed from every material and trimmed with all sorts of lace and embroidery.

In all smart hat models the front brim is short and the back brim is long. This seems to be as universal as anything in fickle fashion's domain can be. It is so radical a change that it is not easy for the eye to become accustomed to it.

The simple little frock illustrated herewith is of that kind in which the youngster is happiest and which the young mother provides in generous numbers. It is made of ring dotted batiste, with trimming of embroidery, but it is susceptible to infinite variation.

Long, flat pocketbooks with a strap on the back are made of pique, moiré, alligator, pla seal and various leathers. Some have little watches set into the corner.

For the front of the corset a heart shaped sashet bag filled with cotton and my lady's favorite scent is covered with flowered silk. This little affair is attached to one side of the corset, and after it is closed it is secured by a tiny gold safety pin. There are also oblong sashet pads designed to fit the sides of the corsets under the arms when such filling is required.

The new effect in hat trimming is to have a shower of two or three long plumes, the longest reaching to the base of the neck of its fair wearer.

Cape wraps lead all the rest, and the faintest little confessions of lace and

IAN MACLAREN DEAD IN IOWA

Famous Author, Preacher and Lecturer Succumbs

TO ATTACK OF TONSILLITIS

A Free Church Clergyman—Resigned Pastorate in Liverpool in 1905 and Had Made Many Visits to This Country Since.

Burlington, Iowa, May 7.—Dr. John Watson (Ian MacLaren) died at 11:15 a. m. yesterday at Mount Pleasant, Iowa. The cause was blood poisoning from tonsillitis. He was taken ill at Mount Pleasant April 13.

The Rev. Dr. John Watson, "Ian MacLaren," was born at Morning Tree, Essex, England, November 3, 1850. He was educated at Edinburgh university and in Germany, and was ordained a minister in 1875. He was appointed Lyman Beecher lecturer at Yale university in 1896, and was made minister of Sefton Park Presbyterian church, Liverpool, in 1890, retaining that position until 1905.

Among the publications of "Ian MacLaren" were "Beside the Bonnie Brier Bush," "The Days of Auld Lang Syne," "A Doctor of the Old School," etc., and among the works signed John Watson were, "The Mind of the Master," "The Cure of Souls," "The Potter's Wheel," "Companions of the Sorrowful Way," "The Life of the Master," "Doctrine of Grace," "The Homely Virtues" and "The Inspiration of Faith."

Dr. Watson arrived in New England on February 9 last, and has frequently during the following days occupied the pulpit of the Fifth avenue church, New York. After leaving New York Dr. Watson went to Ottumwa, Iowa, and on April 21, it was announced from there he had been removed to a hospital and that all his engagements had been cancelled.

A Union's Relief Work.

During the last ten years Typographical Union No. 6 of New York has contributed toward the maintenance of the Union Printers' home, at Colorado Springs, the sum of \$79,800. From July 26, 1901, to July 25, 1906, the union paid \$70,046 to families of deceased members.

From Jan. 1, 1896, to July, 1906, "Big Six" disbursed for the relief of the unemployed and superannuated members \$375,977.41. The union also maintains beds for the use of its sick members in four hospitals.

Baskets.

Baskets are made both by hand and by machine. Very fine qualities of baskets come from China, Japan and India, being made of peculiar varieties of grasses which grow in those parts of the world. Willow baskets are still made by hand, although machinery has been extensively introduced in their manufacture. Wire baskets are machine made.

Why Do Country Boys Flock to Big Cities?

Most small towns are short of young men. As a rule there are plenty of agreeable girls who would not object to matrimony; there are plenty of old people and enough babies to go around. But the boy—oh, where is he! The boy, the young man, has gone to the city, where he imagines there are opportunities. To him the old home town is dull and stupid. He sees no future for himself there. Both for social and financial considerations he rushes off to the great city. Very frequently he finds that he is lonelier there than at home—nearly always so; and even more frequently he finds that riches do not grow on ten story walls.

BUT STILL HE GOES TO THE CITY. In going there the boy simply follows his daddy's dollars. For years his daddy and his mother and his big sister and his Aunt Mary Ann have been mailing their money to the big city for Mail Order bargains. Result: Home merchants don't thrive, grass grows in the streets, no jobs are to be had, no opening for a new business, and the young man goes to the city because it is a place where people have traded at home and built up their own community and provided opportunities for outsiders as well as for themselves.
